Notes:

Based on our experience, the above prices reflect estimated hours of flight training. This is not a guarantee of completion or costs. Your actual costs will most likely be higher due to the FAR Commercial Pilot aeronautical experience requirements, your individual skills, weather conditions, your choice of training aircraft, flying frequency, and/or additional special needs training. You may wish to adjust the above figures accordingly. We recommend you consult with our flight instruction staff to determine your approximate needs.

* Weight and balance limitations may require the use of a Cessna 172 at appx +\$30/hr.

Study materials must be purchased prior to flight training or ground school.

Prices do not include occasional fuel surcharges during volatile fuel pricing.

The Premier Flight Plan is a membership savings program purchased on an annual basis. Please see the separate information sheet for full benefits.

Prices effective August 1, 2019 and are subject to change without notice.
